1. Cinnamon Rose Body scrub is one my of favourites! It's made with organic sugar and roses, then topped with an elixir of essential oils and spices, apricot kernel, grape-seed and jojobo oils, which slowly soaks into the sugar and roses, releasing the most heavenly aroma. The oils break down the rose petals and is absorbed by the sugar, creating a gorgeous scrub that will polish off impurities and leave your skin, soft and perfectly conditioned.
2. There are so many benefits in using our fabulous French Roast & Vanilla Bean salt body polish. No more cellulite. While coffee is wonderful for many reasons, it is actually the caffeine it contains that provides the added health benefits as a scrub. When coffee is applied to the surface of your skin, it helps redistribute fat cells and decrease the formation of cellulite. With your new coffee body scrub skin care routine, you may be able to prevent varicose veins, or even make them vanish! The caffeine in a coffee scrub acts as a vascular restrictor, shrinking blood vessels and reducing varicose veins. It smells amazing and instantly lifts your mood! Beautifully blended with essential oils, grape-seed, jojoba and sweet oil, Dead Sea, Khoisan and Epsom salts.
3. Beautiful feet are a scrub away. Our gorgeous Peppermint Foot Scrub exfoliates, moisturisers and refreshes tired achy feet. You'll want to go dancing.
4. Scrub worries (plus dead skin!) away with this rich and luxurious Chocolate Mint body polish. Our combination of organic cane sugar, sweet almond oil, fractionated coconut oil, organic raw cacao (cocoa) powder and unrefined vitamin e oil and peppermint essence will leave your skin glowing and feeling refreshed.
5. These wonderfully creamy bath melts smell of lavender and roses. Pop one in your bathwater and let the Shea and Coconut butters and essential oils deeply moisturise your skin, leaving it deliciously soft and silky smooth.
